

Virtual Tour of the Inside and Outside Grounds of Eltham Woods Pre-School – 2020

Our lovely Playground offers lots of challenges as well as quieter places to play.
We are very fortunate to have lovely natural light inside our playroom.

ELTHAM WOODS
Pre School

Competent Learner

Children learn from opportunities to experiment with their materials.

We encourage them to create by using their interests in the natural world to extend their learning.

Using water colored paper to then create insects from the paper they created.

Spiderwebs

Silk Worms

Stick Insect Pets

Natural World & Life Cycles

Children learn from opportunities to search for insects in the garden, handle and care for their creatures or examine things in their natural world.

Children are allowed time to learn and explore their materials. Open ended materials provide lots of opportunities for learning about quantity, volume, co-operation, pattern, texture, aesthetics, design and construction.

Recent Science & Art Experiences 2020

Mixing Blues and Greens

After learning about spiders, looking at spiderwebs,
making sparkly webs using wire and beads.

Learning about the water
cycle, measuring water
and recording numbers.
